

LONE STAR LEGAL SERVICES, LLC

Lone Star legal Services, LLC specializes in creating properly designed Estate Plans for each client regardless of their financial net worth. Trusts, Living Wills, Asset Protection LLC Entity Formations along with Durable Power of Attorney, Advanced Healthcare Directives and HIPAA Medical Disclosure Authorization Documents are effective tools to manage financial and healthcare decisions as part of Estate Planning.

A Living/Last Will and Testament is established to allow for decisions on how assets are to be distributed after death. Although a Will is less expensive to create, if the Estate's Assets are more than \$184,500 it will be required to be submitted to Probate Court by an authorized Probate Attorney. The Court must approve the contents of the Will and approve/assign an Administrator to oversee the distribution of the assets to the beneficiaries. Probate Court scheduling process usually runs 18 to 48 months. A Will is a valuable tool as an Estate Plan, it illustrates the client's wants and how their affairs managed and assets distributed after death.
